## La Puente. Dibble House

<https://arcadiahistory.andornot.com/en/permalink/paintings27>

**Artist:** Edna Lenz

### Description:

Dibble House -- Built in 1855, this two-storied structure is notable because it was made of bricks from a kiln on the rancho, and was one of the first Southern California dwellings to have been influenced by eastern U.S. architecture. Located in what is now La Puente, it was razed to make room for a housing tract.

**Item ID:** 18L

**Collection:** Paintings
